About Me

B.Tech Computer Science & Information Technology student focused on product design and user-centered digital experiences. Currently working as a UI/UX Design Intern at KeshuX AI, with hands-on experience in user research, requirements understanding, user flows, wireframing, prototyping, responsive web/mobile interfaces, and design systems. Skilled in Figma, information architecture, interaction design, and visual hierarchy, with a strong interest in solving user problems through simple, usable, and scalable product experiences.

PROFESSIONAL EXPERIENCE

UI/UX Design Intern – KeshuX AI | Remote | Aug 2026 – Present

- Design wireframes, user flows, mockups, and high-fidelity interfaces for digital products using Figma.
- Design responsive web and mobile interfaces with focus on usability, visual hierarchy, consistency, and interaction patterns.
- Contribute to design systems and reusable components, including typography, layouts, and interface patterns.
- Translate product requirements and user needs into clear visual and interaction solutions.
- Conduct basic user and competitor research and improve designs based on feedback from design, product, and development teams.
- Maintain organized Figma files and design documentation, communicate design concepts, and complete assigned deliverables within agreed timelines.

PROJECT EXPERIENCE

1. Crumb & Cream – Cupcake Ordering Platform

Product UI & Visual Design | Figma | Canva

- Designed a complete mobile cupcake-ordering experience from brand concept to high-fidelity UI.
- Created user flows and screens for product discovery, browsing, checkout, onboarding, authentication, and profile.
- Developed a cohesive UI system covering typography, colour hierarchy, layouts, components, spacing, and interaction patterns.
- Created wireframes and interactive prototypes focused on usability, intuitive navigation, visual consistency, and responsive design.

2. AUREL – Brand Identity & Packaging Design

Brand & Visual Design | Figma | Canva

- Developed a premium candle brand concept from brand direction and positioning to visual identity and packaging.
- Created a cohesive visual language using typography, colour, composition, hierarchy, spacing, and layout.
- Designed packaging concepts and brand touchpoints aligned with the intended premium lifestyle positioning.
- Considered target-audience preferences to create a consistent and engaging overall brand experience.

3. RailFlow – Railway Booking UX Case Study

UX Research & Product Design | Figma

- Analyzed the railway booking journey to identify usability issues, information overload, navigation challenges, and friction points.
- Conducted UX research and mapped the end-to-end customer journey to identify user pain points and design opportunities.
- Reworked information architecture, navigation, and booking flows to simplify interactions and improve content hierarchy.
- Created low-fidelity wireframes, high-fidelity responsive screens, and an interactive prototype in Figma.

4. Job Tracker – Job Application Tracking Platform

Product & UI Design | Figma

- Identified challenges students face while managing job applications, interview stages, deadlines, follow-ups, and rejections.
- Conducted user research to understand user needs and translate pain points into product and UX opportunities.
- Designed user flows, dashboard architecture, wireframes, and responsive high-fidelity screens.
- Applied clear information hierarchy, reusable components, and intuitive interaction patterns to simplify the job-tracking workflow.

SKILLS

UI/UX: User-Centered Design | User Research | User Journey Mapping | User Flows | Information Architecture | Wireframing | High-Fidelity UI | Prototyping | Responsive Design | Accessibility | Interaction Design | Design Systems | Design Guidelines

Product Design: Product Thinking | Problem Definition | Requirement Understanding | Feature Ideation | Usability | Design Iteration

Visual Design: Typography | Colour Theory | Visual Hierarchy | Layout | Spacing | Composition | Component Design

Tools: Figma | Canva | Notion | GitHub | Basic HTML | Basic CSS

AI-Assisted Design: ChatGPT | Claude | AI-Assisted Ideation | UX Copy | User Scenario Exploration

EDUCATION

Bachelor of Technology – Computer Science & Information Technology | Acropolis Institute of Technology & Research, Indore (RGPV) |

Expected Graduation: 2027 | CGPA: 6.90/10

Relevant Coursework: Human-Computer Interaction | User Experience Design | Design Thinking | Human-Centered Design | Software Engineering

CERTIFICATIONS & PROGRAMS

- AI for Product Management – Google Cloud x Pendo x Mind the Product, 2026
- Product Management 101 – Simplilearn SkillUp, 2026
- McKinsey.org Forward Program, 2026
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – Oracle University
- BCG – Venture & Business Builds Job Simulation – Forage, 2025
- Siemens – Commercial Project Manager Job Simulation – Forage, 2025

CORE STRENGTHS

User-Centered Problem Solving | Creative Problem Solving | Analytical Thinking | Attention to Detail | Design Thinking | Communication | Collaboration | Adaptability | Feedback & Iteration
